Forward

A record of existing and readable footstones and headstones as at April 2008

The headstone provides a genealogical record of names, dates, age and relationships of people etc

A footstone shows the deceased's initials and year of death. I have included them where the headstone is missing or unreadable

Gravestone Inscriptions by location

I have split the churchyard into 2 defined burial areas to help locate the gravestone

- 1) North West of Lynch Gate, newer area
- 2) South West, from left of the church porch, just past the bench, following clockwise around the Church grounds

Note, the oldest area is to the right (South) of the lynch gate, near the Church porch

1) *North West*
